

## Perry in Bloom – ‘Grants for Plants’

Did you know that with our six existing planters, Perry Village now has a grand total of twenty four?!

That's right, eighteen new planters are now in position at various locations, again thanks to the efforts of Martin Wilson and Richard Winsler. Seventeen of the latest addition have already been adopted and just one more volunteer is required to adopt the remaining planter at the junction of Crow Spinney Lane / The Drive. If you are interested or know someone that would be, please let us know?

The Perry in Bloom – ‘Grants for Plants’ initiative will sponsor several planters from central funds (over a three-year period), each adopted by one of our volunteer residents to enhance our village and make it ‘Bloom’. Many of those adopting planters for this year are local children.

Although the construction and positioning process has concluded, lining each of them is underway. Keep an eye out for Colin Beesley who is set to get this done before soil is ordered from the A14 Development Site.

After the soil has been delivered and distributed, the vouchers will be issued and planting can commence!

You will be kept up to date with progress as we are conscious that many of our volunteer adopters are poised and ready to go.

Both Martin and Richard are moving on but should you need any further information or wish to express an interest in adopting a planter, please contact – Clerk to Perry Parish Council (via E Mail, which will remain unchanged) – [clerk@perryparishcouncil.org.uk](mailto:clerk@perryparishcouncil.org.uk)
